

NOvA Operations Status

Evan Niner, Fermilab
10/12/15

Detector Operations

- Stable operations for both detectors no major issues, last call maintenance on a few remaining channels.
- Far Detector running in new DAQ release for a week, will be rolled onto Near Detector this week.
- Doing a test today running the Far Detector with gain of 150 instead of 100.
- NOvA will be tied back into the Booster triggers this week.
- NOvA is ready for beam.
